Headline:

“Losing customers because your brand no longer looks fresh or consistent?”

Sub-headline:

Don’t let outdated visuals, inconsistent signage, or delayed vendor deliveries stop your brand from growing.

We help UAE businesses fix what’s holding them back — fast.

Section 1: The Real Problems Businesses Face

Use 4-column layout with icons & short copy:

Painpoint	Headline	Microcopy
 Inconsistent Branding	Your outlets look different.	Each branch tells a different story — customers get confused, trust drops.
 Outdated Brand Image	Your visuals look old.	Faded colors, old acrylics, outdated fonts — they make your brand look forgotten.
 Vendor Delays	Your deadlines are their excuses.	Delayed signage = delayed openings, missed promotions, lost walk-ins.
 Design Rejections	Your designs keep bouncing back.	Non-compliance or poor artwork costs approvals, time, and money.

Section 2: The Hidden Cost

Every inconsistent outlet or delayed launch quietly eats into your revenue.

 UAE retail data shows that 68% of walk-in customers judge a business by visual consistency alone.

Mini Visual: graph showing “Trust vs Consistency Correlation.”

Section 3: What We Fix (In Real Time)

Problem	What AI Faris Does	Time to Fix
Mixed colors / logos	Standardize brand elements & signage specs across all outlets	3–5 Days
Outdated visuals	Redesign & fabricate fresh acrylic stands, wall graphics & fascia boards	7 Days
Vendor delays	In-house fabrication + installation team for full control	On-Time Guaranteed
Design rejections	Compliance-ready artwork for Dubai Municipality & Mall Approvals	Approved First Time
